

# Linguistic Imperialism Continued

Robert Phillipson

This sequel brings together key writings since the 1992 publication of *Linguistic Imperialism* – Robert Phillipson's controversial benchmark volume, which triggered a major re-thinking of the English teaching profession by connecting the field to wider political and economic forces.

In recent years, the scholarly study of 'global' English, language policy, language ideologies, sociolinguistics, and the global English teaching profession has expanded hugely. Analyzing how the global dominance of English in all domains of power is maintained, legitimized, and persists in the 21st century, *Linguistic Imperialism Continued* reflects and contributes in important ways to understanding these developments.

**Robert Phillipson** is Professor Emeritus, Copenhagen Business School, Department of International Language Studies and Computational Linguistics.

"...A collection of some of Phillipson's most important and influential work...thought-provoking and ground-breaking...it gets to the very heart of some of the key issues around the global dominance of English in the world."

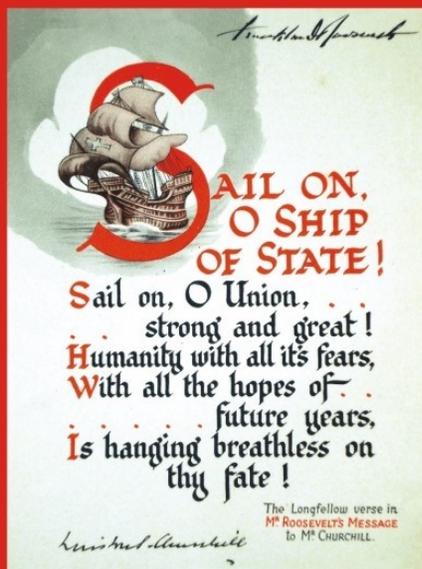

*Peter Martin, University of East London*

"...In this major contribution to critical sociolinguistics, Phillipson describes 'Global' English as 'a normative project, not a reality but a vision that powerful forces are keen to bring about'...A compelling engagement with some of the central sociolinguistic forces in today's world."

*Probal Dasgupta, Linguistic Research Unit, Indian Statistical Institute, Kolkata*
